Outline

Course Format and Modules

Each week, on **Monday**, you will receive new course materials. The learning content of the week will be delivered through videos followed by an activity. These activities will help you to reinforce the key concepts and takeaways.

Throughout the programme, you will be able to exchange ideas with your fellow learners through discussion boards on the learning platform. You will also have a chance to interact directly with your Programme Leader during office hours.

Our Recommendations

To take full advantage of this unique course, we advise the following:

Stay up to date. The course is rich with insights, which you can benefit from only if you allocate a sufficient amount of time to it. Make sure you stay up to date with the modules and the application exercises. Apply what you have learnt to your own work as you proceed.

Interact with your classmates. The course will fly by and the eleven weeks will be gone before you know it. Reach out to your fellow learners early to build connections. Share your experiences and learn from your peers.

Put it into practice. One of our key objectives is to give you actionable resources that you can implement within your area of work. To achieve that, you will need to apply what you learn, which is why we encourage you to complete the activities. The more you practise, the more you will learn and the more effective you will be.
